# POLITECNICO DI MILANO

# Online Learning Guidelines
Data Mining and Text Mining

# Online-Only Lectures

Mute your mic to avoid background noise

We are too many! ☺

If you want, keep your camera on. It is nice to see people but beware that you are recorded!

Beware! Everybody at Politecnico can watch recordings!

Can you hear me?
If not write it on the chat!

If you have problems or questions write on the chat !

Don't turn on your mic!

Again, we are too many! ☺

How to interact?

Option #1: Write your questions on the chat

Option #2: Write your questions on the course forum

Lectures will be recorded and the system will make them available automatically

This system is new for us all and unexpected ☺

We all might experience technical problems

Let's be patient! ☺

You will have access to slides, recorded lectures and the forum to deal with any issue.

# Class Lectures
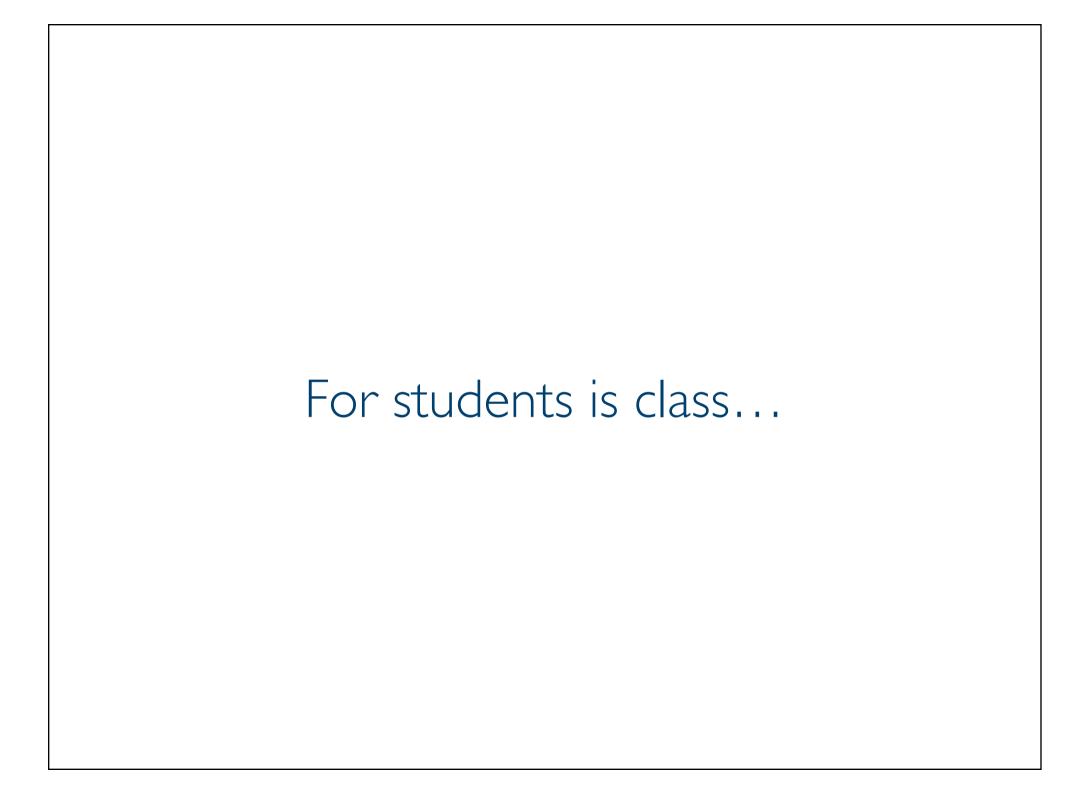

This system is even newer for instructors!

We tried it at most once, last week!

There will be technical problems ☺

No matter what!

Let's be patient! ☺

For online students the same guidelines of online lectures apply ☺

For students is class…

If we are here …

Our body temperature is below 37.5C

We don't have flu symptoms

Students must always keep their mask!

If you have a question you can either raise you hand or write it in the course chat
